The "ENTERPRISE"

In 1891 the Legislature of the Commonwealth of Massachusetts approved the organization and charter of the Massachusetts Maritime Academy. Under the sails of the "Enterprise", and later the "Nantucket", the Academy grew, producing men of the highest caliber in the arts of Seamanship, Navigation, and Marine Engineering.

The "NANTUCKET"

The "CHARLESTON"

During W.W. II the Academy moved to shore side facilities in Hyannis, and shared the Training Ship "American Pilot" with New York and Maine Maritime Academies.

1948 brought the former Navy gunboat "Charleston" to the Academy, and as Hyannis had no harbor facilities for a ship as large as her, the school was moved to its present location at Taylors Point, Buzzards Bay.

In 1957 the Academy purchased the "A.P.A. Doyan", which rechristened the "Bay State", has and continues to serve as the Academy Training Ship. 1965 brought about a great change in the organization of the Academy as it was incorporated into the Division of State Colleges. A new building program was initiated, and in 1969 the Science and Administration Building, the first of the new campus, was completed.

As we watched, construction was started on the Gymnasium, Library, Dormitory and Power Plant, and . . .

After many years, and many battles by many men, a long awaited hope has become a reality. With these new facilities, the Academy has an unprecedented potential.

However, the times are changing, and so the people that teach, as well as those that learn. Whatever the future holds in store for our alma mater, our hope is that the Massachusetts Maritime Academy may continue to offer to young men the opportunity:

*To become a Licensed officer in the
U.S. Merchant Marine*

*To earn the Degree of Bachelor of Science in
Nautical Science or in Marine and Electrical
Engineering*

*To obtain a commission as Ensign in the
U.S. Naval Reserve*

We The Class of 1972 Wish To Express Our Sincere Gratitude To

CAPTAIN PAUL A. JOHANSEN

By Dedicationg Our Yearbook To His Honor

We are Thankful;
Not because he was honest,
 but because he dealt with us honestly.
Not because he was wise,
 but because he shared his wisdom with us.
Not because he smiled,
 but because he made us smile also.
We hope that we may do the same.

OFFICE OF THE PRESIDENT

You, the members of the one hundred thirtieth graduating class of the Mass. Maritime Academy, lived through perhaps the most difficult period in this school's history. As the last class quartered on the Bay State, and the first to occupy the new dormitory, you felt the privations of the old, and were exposed to the great expectations of the new — undoubtedly a most frustrating experience.

But may I suggest that you assess your years at the Academy in the light of their real meaning. These years brought to each of you not only an involvement in the long and proud traditions of both our school and the service for which it prepared you but also a discipline of self and the means of following a career within an environment, the seafaring life, which means so much to all of you.

As any great tradition implies not only an honored past but also a going forward, an advancement, so also should your relationship with the Maritime Academy be measured. Each of you helped to sustain our tradition, adapted to the difficulties of change, and, in surviving, helped to insure the Academy's continuation and growth. And as the Academy grows, you will be part of it and will share in its growth, even as you and your careers grow.

I regret that my acquaintance with you was so brief, but since our careers are mutually dedicated to things maritime, we shall frequently cross courses in the years ahead. And as we all work to go forward, let us develop and strengthen that bond which joins us, the rich tradition of our Academy.

Sincerely yours,

President Lee Harrington

alone, we had heard rumors to the effect that we would actually survive through it, and best of all, we were fast becoming good friends.

The highlight of our youngie year was when we discovered that our floating prison would actually run. On January 14, we departed Buzzards Bay, for the forboding waters of the clammy green Atlantic, which was only matched in hue by the lifeless faces of those who stood the hopper watches. Hey D. We limped on to Bermuda, which proved to be the finest port we had yet visited. Its fine beaches, relaxing bars, motor bikes, and duty free shops offered more than we could hope for.

Our last port of call was Mayport, Fla. It was nice to be back to the States, but Mayport left an awful lot to be desired, so that on March 18, when the "Bay State" came to

rest at the "Tomb of the Unknown Academy", came none too soon.

We being the last of the three year school had managed to sleet out of "Young Mans Knowledge" and lanyard festers, but well into the fourth quarter we repaid our debt to the tune of \$105.80. And by the way, what was the story with that little yellow spitfire after all?

As our second-job year forced its way upon us, major stumbling blocks sprang up to impair our progress. For the deckies, the problem was time. We found out that we could not tell it. The engineers found out that "Current" was going to give them a lot of static.

Then the first Admiralty Law class came early for the deckies, in the case of Seaman-ship vs: the Honor Code, (Ref. H.G.C./bo).

Upon arrival in Savannah, Ga., we found the sights quite interesting, unfortunately, many of them were portable. But being in the shipyard here was a real Maritime bargain. It only cost us \$30,000.63 plus the cost of yard work and drydock facilities. However,

Our last quarter as underclassmen came to a close on the shores of Lake Arena. Fumble Oil Co. bought the mineral rights to Taylors Point, and struck it rich.

We finally became upper-whacks, and assumed command just as the winds of change started to blow across the Academy. President Limouze had resigned and we were in the process of searching for a new presi-

Captain Johansen wasn't going to take the ship, and Chief Arena would be busy in the power plant. We began to wonder whether or not we were even going to have a cruise this year, but when we

IN MEMORY

David A. Gillespie

Paul J. Vaz

In reflecting back upon our years at the Maritime Academy we usually remember the good things and the happy times.

In sharp contrast to these thoughts however, is our memory of the loss of four classmates, whose lives were taken from us during our stay here. These fine, young men had become like brothers to us all, and remembrance of them will bring a heart felt sadness.

The 1971-72 Soccer season began after the second class cruise with the hope that with more practice, a winning season would result. The result was not quite that which was hoped for, but it was the best season in several years.

Last years forward line of John Fitzpatrick, Pat Jenkins, Ace Cahill and George Arsenaault were bolstered by some new freshmen, and a definite scoring threat was imposed against all teams on the schedule. The halfbacks Frank Peterson, Steve Cheromcha and Ray Doherty did a superb job on offensive and defensive. The fullbacks, John Hopkins and Ken Rogers proved to be tough, as they with the help of goalies Paul Preziose and Kevin O'Brien, held Barrington, the leagues finest, to their lowest score all season.

Co-Captains Paul Preziose and Pat Jenkins, with Coach Gilmetti

Senior members from **L. to R.** K. W. O'Brien, P. W. Preziose, P. W. Jenkins, J. L. Fitzpatrick, M. F. Cahill, G. P. Arsenault.

CROSS COUNTRY

Senior team members from l. to r. Coach Johansen, J. S. Harris, J. E. Mayhew, J. F. Midwood, B. A. Jillson, G. W. Norgeot, Mgr.

After just two years of coaching, Captain Paul Johansen produced the winningest cross-country team in the Academy's history. The team's most satisfying victory was a tri-meet held along the Charles River, after a typical night on Kenmore Square. The only poor showing for the season was on the mountainous course at Worchester. This year the team did manage to bring home the Academy's first trophy in cross-country — a second place in the "Pop Crowell" Invitational Meet held in Barrington, R.I. The team topped off the season by revenging the one point loss to the host's of the Barrington Invitational with a surprising one point upset on our home course. Now that the pace has been set the grads are confident that the future cross-country teams will continue to display a winning record.

The Reward of a good season

HOCKEY

L to R: S. T. Flanagan, P. F. Coleman, H. J. Kunkel, T. Haley, K. G. Braun, Coach Morrill, J. R. Cole, M. A. Crombie, R. M. Pierce, D. A. Larson, P. F. Gavin, J. D. Glennon, E. F. Kelly, R. A. Flanagan, G. C. Wilkinson, M. J. McCarthy.

The 1971-72 Massachusetts Maritime Hockey team was probably one of the best examples of determination ever seen at the Academy. Under the capable leadership of Mike McCarthy and the team "Superstar" Jeff Wilkinson, the club showed our inter-collegiate competitors the results of many hours of hard work and practice.

After clashing with Curry, Suffock, Bridgewater, Framingham, Emerson, 4C's, and the Falmouth Flyers, the team managed to emerge with a .500 record. Thanks to Lt. Sachet, the cadet battalion was allowed to attend the games at Falmouth. The players could always pick their job-suited rooters out of the crowd, but of course, job suit or not, Maritime cadets stand out in a crowd.

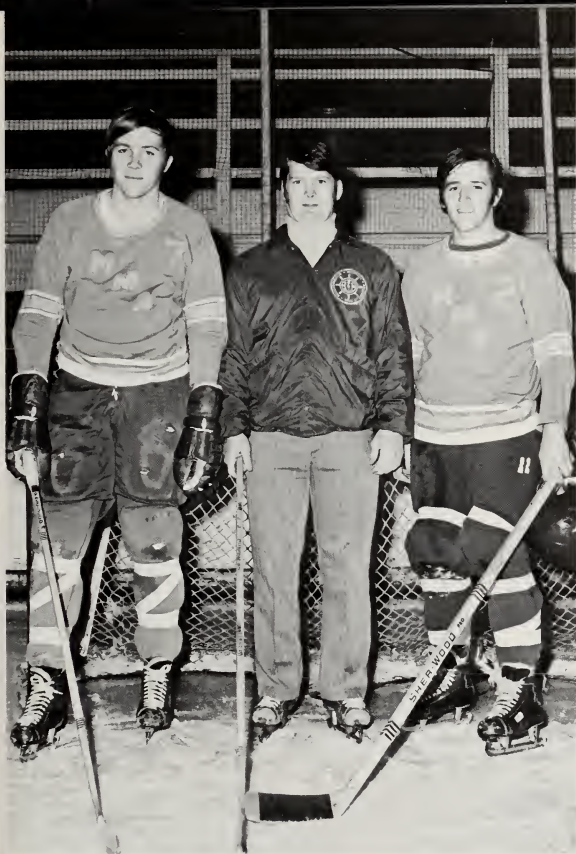

Coach Jack Morrill took over the team in nearly mid-season, and helped the team finish with a respectable average. He certainly deserves a sincere "well done" and thanks from each and every member of the team.

Next year the team will be without the service of veterans Paul Gavin, John Glennon, Rick Flanagan, and Co-Captains Mike McCarthy and Jeff Wilkinson, as well as the invaluable trainer Dean Larson and Manager Bob Pierce.

The Lacrosse team began its 1972 Season under a new coach, Harry Evans. He brought with him ambition, wind sprints, drills, and after a few scrimmages, Evan's Raiders began to put everything together.

After an almost winning season, 4 wins and 5 losses, we look forward to a great 73 season, as all but one member of the team will be back to win.

Nineteen hundred and seventy-one
from eight to twelve o'clock
R.N.D. Formal*

A most enjoyable evening was had by all who attended the 1971 annual "Ring Dance", at the Danversport Yacht Club.

The Dance was preceded by a candlelight dinner with the strolling minstrels of Sherman Marcus Orchestra.

The evening was highlighted by the Ring Ceremony, symbolizing the marriage of the mariner to the sea, and a precision drill exercise presented by the Honor Guard.

Although the festivities ended at midnight, for most, the evening had just begun . . .

Twelve Angry Men opened Thursday night, April 20, at the M.M.A. gymnasium to a small but enthusiastic audience. The Maritime Players played the roles of 12 very different individuals assembled to decide the fate of a 19 year old boy who appears to have killed his father out of passion and hatred.

The jurors take a vote almost immediately upon entering the jury room. The vote is 11 guilty to 1 not guilty. Personalities emerge strongly throughout the entire play as the jurors argue the evidence. The emotion packed acting rises to a climax as one by one each juror is convinced that there is a reasonable doubt as to the guilt of the defendant.

THE DIRECTOR, Henry Ceely

All of the action takes place within the confines of the jury room. It is here that the audience learns the facts of the case through the arguments of the jurors. The actors must perform perfectly their roles as there are no opportunities to leave the stage to consult their lines.

Mr. Henry Ceely, the director, has produced a wonderful suspense packed play. This is the first time that this play has been performed live in this area. The play was originally designed for television several years ago, and is an example of local talent performing at it's best.

It is customary to place the "ad" section of a yearbook at the very end of the publication. Although we are slaves to this custom, we wish to express our conviction that this position in no way reflects our sincere appreciation to those who made this book possible through their generous support.

From the smallest contribution in the patrons section, to the full page ads, each has given what he could, and in the aggregate, this generosity has made the 1972 **MUSTER** possible.

Our sincere thanks to one and all.

It is with this Ship's Bell that Chelsea's reputation of "Timekeepers of the Sea" was built. Plainly and simply it is the finest instrument of its kind in the world. The clock's superbly designed eight-day, eleven jewel movement strikes the traditional Ship's Bells and can be depended upon for precise accuracy through years of use. The case is solid brass. Dial sizes range from 3¾" to 8½". A barometer that matches the Ship's Bell in both design and accuracy is also available. Both instruments may be purchased at finer jewelry, department stores and marine supply houses. Or write us at 382 Everett Avenue, Chelsea, Mass. 02150.
